
Glycoluril

Glycoluril

Chemical Name:	Glycoluril
CAS No.:	496-46-8

Technical data

Appearance	White powder
Solubility	Soluble in alcohol, sp. Soluble in water
Assay	≥98.0%
Melting Point	300°C
PH	6.5~7.2
Water content	≤0.2%

Application

Glycoluril is being used in amino and glycoluril resins

Packaging

Available packaging: 25 KG paper bag / 500 big bag
